THE STORY OF OUR POM FRITES

Our Pom Frites are made from a unique Dutch potato that stands out in both texture and flavor. It is sustainably grown by a single farmer in the mineral rich sea clay grounds close to the North Sea.

The fresh potato is turned into crispy Pom Frites through a natural process without additives.

Our high-quality oil, made from selected sunflower seeds is packed with good fats. A hand harvested mineral sea salt from Bretagne gives our Pom Frites the final touch.

This dedication to quality and craftsmanship led us to become world champions in french fries at the 2024 World Championship in Arras, France.

A LA CARTE

We recommend to:

- 1: Start with some Pickles and a Fizzy Cocktail
- 2: Pick a Topped Frites and a Side of your liking
- 3: Finish strong with a Topped Ice Cream
